Contractors Examination Summary

2024 Legislation

Relating to Unlicensed Contractors

S.B. 2977, H.D. 1

Authorizes the imposition of a penalty for unlicensed individuals performing certain work that requires a contractor license, including the offering or performing of repairs or improvements to existing structures and property and tearing down or rebuilding structures and property that were damaged or destroyed due to a natural disaster.

Relating to Renewable Energy

H.B. 2614, H.D. 1, S.D. 2

Requires government entities in the State that issue building permits to implement, by 1/1/2025, SolarAPP+ or a functionally equivalent online automated permitting platform that verifies code compliance and issues permits to licensed contractors for solar distributed energy resource systems in real time. Requires government entities in the State that issue building permits in areas served by an investor-owned electric utility to adopt a self-certification process for solar distributed energy resource systems that are not SolarAPP+ compatible. Requires the Hawaii State Energy Office to develop a plan for the State to achieve its energy goals with deadlines, including the Renewable Portfolio Standards, before 1/1/2025.

Relating to Contractors

a. H.B. 1633, H.D. 1, S.D. 1

Repeals the leasing restriction on owner-builders who obtain an owner-builder exemption to act as their own contractor and who build or improve residential or farm buildings or structures on their own property and do not offer the buildings or structures for sale.

b. S.B. 371, S.D. 1

Defines "incidental and supplemental work" for purposes of specialty contractors under the contractors law.
