II. Reading of Antitrust Statement (00:00:07)

The antitrust statement was read by Mr. Nishioka as follows:

“As members of this organization or participants in this meeting, we need to be mindful of the constraints of the antitrust laws. There shall be no discussions of agreements or concerted actions that may restrain competition. This prohibition includes the exchange of information concerning individual company rates, coverages, market practices, claims settlement practices or any other competitive aspect of an individual company’s operation. Each member or participant is obligated to speak up immediately for the purpose of preventing any discussion falling outside the bounds indicated.”

III. Approval of Minutes (00:03:54)

Mr. Feltman moved to approve the meeting minutes from November 8, 2024. Ms. Sato seconded the motion. With no members objecting, the motion passed unanimously.

IV. Financial Reports from the Hawaii Joint Underwriting Plan (00:04:40)

Reviewing the cash flow projection prepared by AIPSO, Mr. Bump noted that there does not appear to be a need for an assessment to be made at this time. Mr. Higashi asked if there are any known open large claims that might impact the projection. Following discussion, Mr. Assad said that AIPSO will do an analysis of claims activity over the past year compared to prior claims activity and see if there appears to be anything extraordinary and add it to the analysis for next quarter.

V. Items for Discussion

A. Servicing Provider Update (00:14:11)

Ms. Kernan presented the servicing provider update, noting that, with regard to days to process, AIPSO is averaging about three days for personal auto turnaround.

Ms. Benkovich provided an update after meeting with Mr. Higashi and others from his office about their concerns voiced at the last board meeting regarding the process. Ms. Benkovich said that, hoping to get feedback from as many as possible who had had experience with the process, she sent out a survey to all producers who have submitted commercial business since October 1, 2024 and that she received two responses in the week since the survey was sent out. The board members said that they can assist with trying to get more producers to

respond to the survey.

B. Proposal – Principles of Operation Commercial Provisions (00:24:07)

Ms. Hanson presented AIPSO's Principles of Operation Commercial Provisions proposal that allows AIPSO to assume the role of HJUP's servicing entity. Mr. Feltman moved to recommend to the Commissioner to approve the proposal. Ms. Blalock seconded the motion. The motion passed unanimously.

C. Proposal – Premium at Present Rates Experience Rating Plan (00:25:34)

Ms. Hanson presented AIPSO's proposal to replace the current experience rating plan with an experience rating plan that is based on current Plan premiums. Mr. Feltman moved to amend the proposal to reflect the utilization of current and future liability factors and to recommend to the Commissioner to approve the amended proposal. Ms. Sato seconded the motion. The motion passed unanimously.

RE: HJUP Cash Flow Projection – As of December 2024

Dear Jerry:

Attached is a twelve-month cash flow history to help you better estimate the timing and amount of future assessments for the HJUP. Based upon the last twelve months of activity, the monthly average cash flow projection indicates that the average cash outflow will be approximately \$53,119 per month, which excludes the assigned claims assessment. We have a \$3,049,007 available balance as of December 31, 2024.

AIPSO reviewed the cash position and required policy year settlements which occur when a policy year is dropped from the books. We estimated the expected outflows for the next 3 years (see attached) for both operational and policy year drop. As of December 2026, the HJUP cash balance is estimated to be \$830,143. While this projection provides a gauge of expected cash flow, it is not scientific and is not based on an actuarial review of the HJUP book of business. As a result, we feel going beyond 3 years may further distort its value.

This Cash Flow also includes the new AIO-HI program expenses projected for the year.

Please review the cash flow projection. If you have any questions, I can be reached at 401-429-1417 or at Victoria.Ivanov@aipso.com with preparation questions.

Sincerely,

Victoria Ivanov,
Financial and Investment Services-Accounting- Supervisor

RE: HJUP - FINANCIAL STATEMENTS – QUARTER ENDING 12/31/2024

Dear Jerry:

Attached are the Hawaii Joint Underwriting Plan financial statements for the period ended **December 31, 2024**. The reporting requirement that breaks down the information into four separate classes was effective January 1, 2008. The four class reports will not balance to the fiscal year to date consolidated information for several reasons.

1. The premium deficiency reserve, claim service fee reserve and anticipated salvage and subrogation reserves computed by AIPSO do not contain a breakout of private passenger business between the high risk and other private passenger classifications. Therefore, the entries for these reserves are only allocated to the class level for Commercial and CPAI business. The difference in the change in reserves attributed to Private Passenger High Risk and Private Passenger other business, which cannot be allocated, are as followed:
 - Loss Reserves and Losses Incurred – \$449
 - Premium Deficiency Reserve - \$0
 - Servicing Carrier Fees Claim LAE- \$592
2. Also, some general ledger accounts, such as interest income, bureau expenses, bank charges, etc. are not able to be split out by the four classes due to the nature of the account activity. We have not allocated these general income and expense items on the class exhibits.
3. The class reports are provided to allow the department to review the pure results of the HJUP business by class, without distortions, which would have occurred from the allocation of some non-class specific results.

The financial statements included are as follows:

BALANCE SHEET – CONSOLIDATED

STATEMENT OF INCOME AND EXPENSES - CONSOLIDATED AND BY CLASS

STATEMENT OF OTHER THAN UNDERWRITING EXPENSES - CONSOLIDATED

QUARTERLY EXHIBIT OF RESERVES - CONSOLIDATED AND BY CLASS

QUARTERLY RESULTS OF OPERATIONS - CONSOLIDATED AND BY CLASS

MODEL PLAN AMENDMENTS**Defining the Issue**

The Model Automobile Insurance Plan (Model Plan) is a manual of administrative rules and operating procedures that serves as the model countrywide. Model Plan amendments are introduced to reflect current business practices, eliminate obsolete language, and modernize and simplify language to create uniformity for the Hawaii Joint Underwriting Plan (HJUP) servicing entity.

Action Needed

Please review the following information and decide if the proposal is appropriate for HJUP use.

Proposal

We propose amending the HJUP Personal Provisions to

- introduce Model Plan amendments which eliminates obsolete language, modernize, and simplify existing language, and reflects current business practices, and
- provide the producer with the option to use their e-signature software product to obtain signatures of the applicant during the application process,
- introduce performance standard requirements for the producer who chooses to use their e-signature software product, and
- include the signatures of the applicant and the producer as one of the requirements for coverage to be effective.

Impact

The proposal will have the following impact:

- Update and streamline the HJUP to enhance operational efficiencies for the HJUP.
- Simplify and create uniformity among residual market mechanisms countrywide.
- Clarify and align HJUP provisions and operating procedures to conform with current business practices.
- include the original signature of the applicant and producer on the application submitted to the Plan as one of the requirements for coverage to be effective. Producers who have an electronic signature product may utilize it to obtain the applicant's signature during the application process.
- Allow a producer to use their e-signature product to obtain signatures of the applicant during the application process. The use of e-signature software is optional. A producer may continue to submit applications with an original signature.
- Require a producer who chooses to use their e-signature product to (1) maintain any electronic communication between the producer and the applicant, and any authentication certificates and documents produced by the producer's e-signature software product and (2) make such documents upon request for inspection when requested.

- Eliminate HJUP provisions that are obsolete.

AIPSO Systems Impact: Coordinate January 1, 2026 effective with ISPS.

Background

AIPSO's Senior Management formed an internal team to identify and implement changes within the Plan of Operation. The team collaborated with AIPSO internal business units to identify areas of the Uniform Automobile Insurance Plan that could be modified, simplified, or eliminated to create uniformity among the state Plans countrywide and align with current business practices. A new Model Automobile Insurance Plan was developed.

The Residual Market Committee (RMC) and the Executive Committee of the AIPSO Board of Directors have approved the Model Automobile Insurance Plan.

HJUP RETRACTION OF A COMMERCIAL APPLICATION

Defining the Issue

Once a producer completes a commercial application using the online application submission system, the application must be printed, signed, and submitted to the HJUP along with the deposit and the supporting documentation. Current procedures indicate that if the producer does not submit the commercial application, the deposit and supporting documentation to the HJUP after using the online application submission system, the HJUP will retract the application 20 calendar days following the date of transmittal. The HJUP will notify the applicant and producer that the application has been retracted and that the application is considered null and void and no coverage is in effect. The HJUP will increase the number of days for retraction of the commercial application from 20 calendar days to 45 calendar days.

Proposal

The commercial provisions are amended to change the timeframe the HJUP will retract a commercial application from 20 to 45 days if the producer does not submit the commercial application, the deposit and supporting documentation to the HJUP after using the online application submission system.

Impact

Adoption of these amendments will have the following impact:

- The HJUP will retract a commercial application 45 calendar days following the date of transmittal if the producer does not submit the commercial application with the deposit and supporting documentation to the HJUP.
- Once a commercial application has been retracted by the HJUP after 45 calendar days, the application is considered null and void and no coverage is in effect.
- The HJUP will no longer retract a commercial application 20 calendar days following the date of transmittal if the producer does not submit the commercial application with the deposit and supporting documentation.
- The producer can continue to retract a commercial application using the online electronic retraction process when:
 - coverage through the HJUP is no longer required, or
 - the producer has made an error in the information provided, or
 - the producer has, in error, requested more than one reference number for the same application.

Background

Effective October 1, 2023, the Principles of Operation – Commercial Automobile Part was amended to provide Hawaii licensed producers with guidelines on how to register, write and transmit commercial business to the HJUP. The provisions provided the requirements for mandatory electronic application submission, quoting assistance for producers to follow when applying for commercial coverage through the HJUP, and retraction procedures.

Prior to implementation, AIPSO's HJUP configuration team set the electronic application processing system's retraction period at 45 days. Amendments to the Commercial Automobile Part are proposed to mirror the HJUP electronic application processing system's retraction period.
